

GMysqlClient::OnlineRecord

```
graph LR; A[GMysqlClient::OnlineRecord] --> B[GMysqlClient::ATOI]; A --> C[GMysqlClient::MysqlQuery];
```

The diagram illustrates a class structure where `GMysqlClient::OnlineRecord` is a base or parent class, indicated by its gray shading. It has two outgoing relationships, represented by blue arrows, pointing to `GMysqlClient::ATOI` and `GMysqlClient::MysqlQuery`, which are shown in white boxes with black borders.

GMysqlClient::ATOI

GMysqlClient::MysqlQuery
